## HUNTING ACCESS GUIDE

BLOCK MANAGEMENT PROGRAM

Use this access guide for  
Block Management information  
in all Montana hunting regions

Montana Fish,  
Wildlife & Parks

VALID ONLY FOR THE 2013 HUNTING SEASON. Photo by Denver Bryan

See page 2 for Details, Reminders, Closures and Notices

# ABOUT THE PROGRAM...

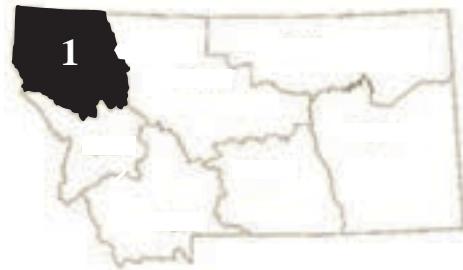

**BLOCK MANAGEMENT** provides managed public hunting free of charge on private and isolated public land enrolled through cooperative agreements between Fish, Wildlife, & Parks (FWP), private landowners, and public land management agencies.

- **Landowners do not forfeit any private property rights** by enrolling land, including the right to deny access for cause and the right to enforce ranch rules;
- Every Block Management Area (BMA) has **rules specific to that BMA**. It is the hunter's responsibility to know the rules for a BMA being hunted;
- **Hunters with special needs** are encouraged to contact the regional FWP office to determine if opportunities exist to meet specific needs;
- Hunters should **sign permission slips only for the actual days of hunting**. Signing for additional days costs program dollars that could be used to enroll other BMA properties;
- Hunters should **cancel reservations** if unable to hunt on the reserved day. Failure to cancel reservations may result in cancellation of future BMA privileges;
- **Hunter behavior** determines whether or not landowners participate in the program. Courteous, legal, and ethical behavior keeps gates open. Please report any violations.
- There are **two types of BMAs:**
  - **Type 1 BMA: area where hunters administer their own permission.** This includes BMAs that use sign-in boxes, and BMAs that do not require hunters to obtain permission. Typically, Type 1 BMAs do not limit hunter numbers or require reservations, although some parking areas have vehicle limits.
  - **Type II BMA: area where someone other than the hunter issues permission.** This includes BMAs where the landowner or an FWP staff member issues permission. Type II BMAs often require reservations and utilize pasture assignments, hunter number limits, and other hunter management systems.
- **BMA Maps:**
  - Each region has its own policy regarding distribution of maps. Some regions provide a specific number of maps per hunter per day, while other regions may only provide maps at the BMA site when the hunter receives permission. Please refer to the regional information in this guide to determine how a particular region handles map distribution.
  - For the 2013 hunting season, FWP will provide most BMA maps electronically on the FWP website at <http://fwp.mt.gov/hunting/hunterAccess/privateLand/blockman/>

# Region 1

## 2013 Block Management Program

For the 2013 hunting season, approximately 770,000 acres of private land will be enrolled in FWP's Region 1 Block Management Program. The majority of these lands are owned by corporate timber companies: Plum Creek Timber Company, F.H. Stoltze Land and Lumber Company and Stimson Lumber Company. However, traditional private land BMAs can also be found in Region 1. This region of Montana is primarily a densely conifer forested habitat type, which offers opportunity to hunt elk, deer, moose, black bear, wolf, mountain grouse, turkey and occasionally waterfowl.

Individual BMA maps are available online as well as at the Region 1 headquarters in Kalispell. To access maps online, visit the FWP website at

<http://fwp.mt.gov/hunting/hunterAccess/blockman/regions/region1/>. It is recommended you print your maps from a color printer to ensure color coded restrictions and landownership are clearly represented. The Plum Creek BMA map is intended to depict broad landscape ownership. For greater detail with respect to Plum Creek ownership, use the appropriate National Forest Service Map (Flathead, Kootenai or Lolo).

Plum Creek Timber Company also offers opportunities for hunters with disabilities. For more information visit the R1 FWP headquarters at:

490 North Meridian Road  
Kalispell, Montana 59901  
Phone: (406) 752-5501

Remember, Block Management lands are **private lands** that are open to public use. They are available only as long as we treat these properties with respect and follow all rules and regulations.

Some general regulations you will need to know before you go hunting are:

- \* Motorized vehicles are permitted only on open, established roads.
- \* Off-road vehicle use is prohibited.
- \* A bermed road is a closed road.
- \* Roads with gates are closed, whether the gate is open or closed, unless posted otherwise.
- \* There is a 14-day camping limit in some areas.
- \* Permits are required for firewood cutting.

And as always, remember that a State Lands Recreational Use permit is required if you plan to utilize state lands for activities other than hunting, fishing or trapping.

## Region 1

### REGION 1 BLOCK MANAGEMENT AREAS

REGION 1 BLOCK MANAGEMENT AREAS						
BMA No.	BMA Name	General Location	Acres	Dates Open to Hunting	Method for Obtaining Permission/ BMA Type	Primary Hunting Opportunities
1	Naegeli Ranch	Little Beaver Creek, near Thompson Falls	920	Sept 1 – Dec 31	Written permission given on site or call 406-827-4887.	WT/M Deer, Elk, Bear, Turkey, Waterfowl D/E 121
2	Kohler Lake	South of Creston	160	Sept 1 – Dec 31	Written permission administered by R1 FWP. Call 406-752-5501	WT/M Deer, Elk, Bear, Upland Gamebirds, Turkey, Waterfowl D/E 132
3	Gardner Ranch	Trout Creek	881	Sept 1 – Dec 31	Register daily at sign-in box.	WT/M Deer, Elk, Bear, Upland Gamebirds, Turkey, Waterfowl D/E 121
4	Meuli Ranch	Proctor/Dayton	3,000	Sept 1 – Dec 31	Register daily at sign-in box.	WT/M Deer, Elk, Bear, Upland Gamebirds, Turkey, Waterfowl D/E 120
5	Peters Family Trust	West of Trego	653	Sept 1 – Dec 31	Landowner permission given on site or call 406-882-4715.	WT Deer, Elk, Turkey D/E 101
6	Columbia Falls Aluminum Company (CFAC) South Half	Northeast of Columbia Falls	900	Sept 1 – Dec 31	Written permission administered by R1 FWP in Kallispel. Contact 406-752-5501 for more details.	WT/M Deer, Elk, Bear, Upland Gamebirds, Turkey D/E 110
7	Columbia Falls Aluminum Company (CFAC) North Half	North of Columbia Falls	1,000	Sept 1 – Dec 31	Written permission administered by R1 FWP in Kallispel. Contact 406-752-5501 for more details.	WT/M Deer, Elk, Bear, Upland Gamebirds, Turkey D/E 110
8	F.H. Stoltze Land and Lumber Company Johnson Creek	North of Columbia Falls	1,100	Year Round	Permission is not required. Users must follow BMA rules/regulation and Open Lands Use Policy	WT/M Deer, Elk, Bear, Upland Gamebirds, Turkey D/E 110, 132
9	F.H. Stoltze Land and Lumber Company Haskill Basin-Trumble Creek	Northeast of Whitefish	10,600	Year Round	Permission is not required. Users must follow BMA rules/regulation and Open Lands Use Policy	WT/M Deer, Elk, Bear, Upland Gamebirds, Turkey D/E 110, 132

## Region I

### REGION 1 BLOCK MANAGEMENT AREAS

BMA No.	BMA Name	General Location	Acres	Dates Open to Hunting	Method for Obtaining Permission / BMA Type	Primary Hunting Opportunities	Hunting District	BLM or USFS Map	Additional Information
10	Avista-South Fork Bull River	Southwest of Libby	574	Sept 1 – Dec 31	Written permission is required. Obtain permission by contacting the Avista Land office in Noxon at 406-847-1285.	WT/M Deer, Elk, Bear, Upland Gamebirds, Turkey, Waterfowl	D/E 121	Kootenai National Forest	
11	Avista-Bull River	Southwest of Libby	155	Sept 1 – Dec 31	Sign-in Box	WT/M Deer, Elk, Moose, Bear, Upland Gamebirds, Turkey's, Waterfowl	D/E 121	Kootenai National Forest	Hunters are only allowed to use a shotgun, muzzleloader, handgun or archery equipment on this BMA.
12	Avista-Tuscor	West of Trout Creek	500	Sept 1 – Dec 31	Written permission is required. Obtain permission by contacting the Avista Land office in Noxon at 406-847-1285.	WT/M Deer, Elk, Moose, Bear, Upland Gamebirds, Turkey's, Waterfowl	D/E 121	Kootenai National Forest	
13	Avista	Northwest Montana	3,800	Year Round	Permission is not required. Users must follow Avista Open Lands Use Policy.	WT/M Deer, Elk, Moose, Bear, Upland Gamebirds, Turkey, Waterfowl	D/E 121, 123	Kootenai & Lolo National Forests	
	Stimson Ruby-Brush	North of Troy	7,567	Year Round	Permission is not required.	WT/M Deer, Elk, Moose, Bear, Upland Gamebirds, Turkey	D/E 100, 104, 121,123	Kootenai National Forest	
	Stimson Troy	Troy	21,428	Year Round	Permission is not required.	WT/M Deer, Elk, Moose, Bear, Upland Gamebirds, Turkey	D/E 100, 104, 121,123	Kootenai & Lolo National Forests	
	Plum Creek Timber Company	Northwest Montana	717,500	Year Round	Permission is not required.	WT/M Deer, Elk, Moose, Bear, Upland Gamebirds, Turkey's, Waterfowl	D/E 100, 101, 102, 103, 104, 110, 120, 121, 122, 124, 132	Kootenai, Flathead & Lolo National Forests	Contact the R1 FWP office in Kalispell for BMA map and regulations.

## **Clark Fork Hydro Project Lands Policy (FERC Project #2058)**

---

Avista Utilities welcomes the responsible and appropriate use of our land for noncommercial activities such as fishing, hunting, camping, picnicking, and hiking. Avista property is privately owned, however it is open to the public in most areas.

Follow posted rules and regulations when visiting Avista lands. Individuals violating rules and regulations will be expelled from Avista lands and may receive a citation.

Please Note: Water levels are subject to change without notice.

---

### **Motor Vehicle and Road Restrictions**

Avista restricts motorized use on our land to preserve important natural resources, limit the spread of noxious weeds and protect company property

- Motorized traffic is limited to designated roads.
  - ATV's must be licensed; an ATV sticker is not a substitute for license.
  - All state laws apply (speed limit, valid drivers' license, etc.).
- 

### **Camping Rules and Regulations**

Camping is allowed unless otherwise posted. Some areas have site specific rules and regulations posted. It is your responsibility to know if special rules apply.

- There is a 14 day camping limit in any 30 day period and a 30 day limit per year.
  - Use only down wood for fires. Fires must be attended at all times.
  - Campsites cannot be left unattended overnight.
  - Pack it in, pack it out. There is no garbage service.
  - Fireworks are not permitted on Avista property.
  - Animals must be leashed if requested by another individual.
- 

Commercial activity (outfitting / guiding, firewood cutting, etc.) is allowed with written permission only. Do not trespass on other private property to reach Avista land.

### **Welcome to Avista Utilities land.**

Please call 406-847-1280 if you have questions or comments or contact MFWP Region 1 office in Kalispell at 406-752-5501.

**Montana Fish,  
Wildlife & Parks**

## Rocky Mountain Region Open Lands Policy

Plum Creek welcomes the responsible use of its timberlands by the public for noncommercial recreation such as hunting, fishing, and camping. Logging and forestry activities are ongoing however, and may pose a danger. Please adhere to the following rules when using Plum Creek lands.

---

### Road Restrictions

Plum Creek often restricts the type of motorized access permitted on its lands to protect wildlife security, prevent sedimentation from logging roads, reduce the spread of noxious weeds, and protect company property. The following rules apply to Plum Creek roads:

- Plum Creek restricts road use with gates, barricades, earthen barriers, or signs. This may be a restriction on roads owned by Plum Creek or a restriction on roads that are cooperatively owned, such as a road cost-shared with the Forest Service. A cooperative road management sign identifies the intended restriction.
- A gate, whether opened or closed, with no sign is a year-round closure to all motorized vehicles.
- Road restrictions apply behind unmarked gates, even if the gate is vandalized or open.
- For a road to be open behind a gate, it must be specifically designated by a sign as open.
- An earthen barrier without a sign is considered a closure to all motorized vehicles, except snowmobiles between December 15 and April 1.
- Gates must not be blocked. Administrative, contractor or emergency traffic may need to pass through.
- All “off road” motorized vehicle use is prohibited.
- Hunting or transportation of hunters or game with administrative or commercial vehicles is prohibited behind a closure.

---

### Camping

Camping is limited to 14 days per campsite. During this time, the campsite must not be left unattended for more than three consecutive days. Camping beyond 14 days requires relocating to a new site at least five miles from the original site. A permit is required for Exceptions and Special Use camping. Cutting trees is not permitted and a permit is required for cutting firewood.

Campers must:

- Pack out all garbage and leave the area clean.
- Be careful with fire.
- Avoid polluting with human waste. Toilets located within 300 feet of water must be self-contained.

---

Please note that commercial activity and woodcutting is not permitted on Plum Creek land without a permit. It is your responsibility to know whose property you are using and you should avoid trespassing on the private property of others to reach Plum Creek lands.

**Please report violations or vandalism to Plum Creek or Montana Department of Fish, Wildlife and Parks.**

Plum Creek:    Kalispell 406-751-2400  
                  Libby 406-293-6204  
                  Missoula 406-728-8350  
                  Seeley Lake 406-677-2320

# HUNTERS!

**Are YOU an *Endangered Species?***

Noxious weeds  
threaten  
Montana's hunting heritage!!

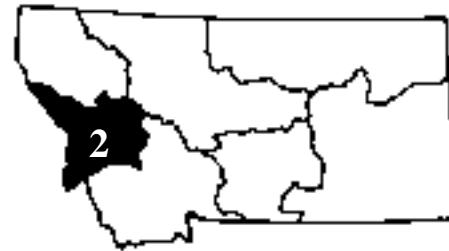

## **WHAT CAN YOU DO?**

- ♦ Learn to identify noxious weeds;
- ♦ Avoid parking, walking or driving in weeds;
- ♦ Wash vehicles before and after hunting trips;
- ♦ Keep clothing, equipment & animals weed-free.

## **Region 2**

### **2013 Block Management Program**

For the 2013 fall hunting seasons, there are approximately 627,000 acres of private and isolated public lands enrolled in FWP's Region 2 Block Management program. Most

Region 2 Block Management Areas (BMAs) are in mountain valleys and foothills, with deer and elk the primary species to hunt. Over half of the Region 2 hunting districts require a special permit to hunt mule deer bucks. White-tailed deer are more prevalent than mule deer in west-central Montana and currently make up three-fourths of the deer harvest within the region. Prairie habitat and associated grain production to support pheasants, prairie grouse and antelope are lacking in this part of the state. Limited BMA opportunities exist for waterfowl hunting along the Bitterroot and Clark Fork Rivers.

Like other regions, Region 2 has Type I and Type II BMAs. A Type I BMA allows hunters to administer their own permission to hunt, while a Type II BMA requires a hunter to obtain permission through the landowner or FWP. BMA hunting opportunities vary greatly with regard to methods of gaining access, opening and closing dates, vehicle travel, game retrieval, camping, presence of public lands, size, limits on hunter numbers, etc. **Therefore, it is very important you get a current year's BMA map and regulations sheet for the BMA you intend to hunt.**

The easiest way to obtain BMA maps is to visit our website at <http://fwp.mt.gov/hunting/hunterAccess/blockman/region2/>. Please be aware that all BMA maps are in color. It is recommended you print your maps from a color printer to ensure color coded restrictions and landownership is clearly displayed. Maps may also be requested by calling our Region 2 Block Management office at 406-542-5530. More specific information about Region 2 BMAs will be displayed at the Region 2 Headquarters, 3201 Spurgin Rd, Missoula, MT 59804. Additionally, most BMAs have maps available on site in hunter registration boxes or in map dispensers. Maps are usually posted at common BMA access points.

In most instances, motorized travel on Region 2 BMAs is restricted to a few main roads, with private ranch roads and logging roads closed by gate or earthen berm. The reasons for limiting motorized access are: 1) reduce noxious weed spread, 2) minimize road damage, and 3) improve hunting quality. Travel on gated roads is typically open to foot, horse and nonmotorized bicycle; but in some instances, exceptions are made to allow hunters to drive in with vehicles to retrieve harvested game animals.

**Plum Creek Timber Company** (PCTC) and **The Nature Conservancy** (TNC) have once again enrolled their land into Region 2's Block Management Program. Plum Creek and TNC's private lands provide access for public hunting and other forms of year-round recreation. Prior to recreating on Plum Creek and TNC lands, pick up a 2013 map and regulations so you are aware of the current rules and regulations as well as any landownership changes that may have occurred.

## Non-BMA Hunting Opportunities

The **Montana State Prison Ranch**, west of Deer Lodge in deer/elk Hunting District (HD) 212, allows hunting on about 31,000 acres. The ranch is divided into an archery-only area and a rifle area. The archery-only area requires written permission, administered by Montana Correctional Enterprises (permission processed annually from August 1 through December 15). The Prison Ranch rifle hunting area does not require permission before gaining access. Contact the Region 2 FWP Office (Missoula) or Montana Correctional Enterprises at 406-846-1320 ext. 2296 for a map, with regulations and access instructions.

The **Lee Metcalf National Wildlife Refuge** (administered by the US Fish & Wildlife Service, USFWS), located north of Stevensville in deer/elk HD 260, allows deer (archery-only) and waterfowl (from blinds only) hunting in designated areas. To request hunting information, contact the refuge by phone at 406-777-5552 or by mail at 4567 Wildfowl Lane, Stevensville, MT 59870.

The **Blackfoot Waterfowl Production Area** (USFWS) is in the upper Blackfoot Valley in deer/elk HDs 281 and 290 (archery-only). This area provides deer, elk, and waterfowl hunting opportunities on about 2,000 acres.

FWP administers numerous **Fishing Access Sites** (FASs) and **State Parks** (SPs) throughout the region. Some, in addition to providing water access to anglers and boaters, have considerable acreage with deer (archery-only) and waterfowl hunting opportunities. Maps of these areas are available from Region 2 FWP Office (Missoula) or online at <http://fwp/mt.gov> (under Fishing, see Visit a Fishing Access Site). Opportunities in HD 260 include:

- **Tucker Crossing FAS**, 250 acres
- **Bell Crossing FAS**, 65 acres
- **Kelly Island FAS**, 650 acres
- **Erskine FAS**, 425 acres (plus access to additional Forest Service property)
- **Council Groves SP**, 190 acres
- **Tucker Crossing FAS**, 251 acres

FWP also administers **Wildlife Management Areas** (WMAs) throughout the region, each of which provides some hunting opportunities. These areas are usually labeled as WMAs or Game Ranges on Forest Service travel plan and BLM maps. Some larger WMAs include:

- **Calf Creek WMA** (HD 261, about 2,300 acres) east of Corvallis
- **Threemile WMA** (HD 204, about 6,100 acres) east of Florence
- **Blackfoot-Clearwater WMA** (HDs 282, 285 & 281, about 46,200 acres) southeast of Seeley Lake
- **Marshall Creek WMA** (HD 285, about 24,200)
- **Aunt Molly WMA**, (HD 290, about 1,200 acres) near Helmville is popular among archers in pursuit of deer (Make sure to be bear aware when using Aunt Molly, grizzly bears use this area heavily).
- **Warm Springs WMA** (HDs 213 & 215, about 4,700 acres), about 15 miles south of Deer Lodge, provides waterfowl hunting opportunities, as well as deer hunting (restricted to archery, shotgun, traditional handgun, muzzleloader and crossbow use).
- **Garrity Mountain WMA** (HD 214, about 9,500 acres) west of Anaconda
- **Fish Creek WMA** (HD 202, 203 and 201, about 41,000 acres) was purchased by FWP in 2010 and is about 10 miles west of Alberton.
- **Spotted Dog WMA** (HD 215, about 38,000 acres) was purchased by FWP in 2010 and is about 4 miles northeast of Deer Lodge.

Maps of each WMA are available from the Region 2 FWP Office (Missoula).

# HUNTERS!

Remember to  
Thank Landowners  
for providing wildlife  
habitat and sharing their  
land with hunters.

HELP PRESERVE  
MONTANA'S HUNTING HERITAGE

# ***Region 3***

## ***2013 Block Management Program***

The Block Management Program in Region 3 (300 series districts) maintains access and hunting opportunity on private lands throughout southwest Montana. Under this program, hunters are granted free access to 85 Block Management Areas (BMA's) owned by 99 landowners, which currently encompass over 539,000 acres of private and public lands in Southwest Montana.

There are two general types of BMA's:

### **Type I BMA's**

Type I BMA's are areas where hunters administer their own permission. This includes areas that use sign-in boxes, places that do not require hunters to obtain specific permission, or places where some other method of self-administered permission is used. Typically, Type I BMA's have no limits on the number of hunters using the area, although certain parking areas may impose limits on the total numbers of vehicles per area.

### **Type II BMA's**

Type II BMA's are areas where someone other than the hunter administers permission. This includes areas where landowners issue permission slips, department staff administers permission, or some other permission method is used. Reservations, pasture assignments, limits on hunter numbers, and other hunter management methods are often used on Type II BMA's. Most Region 3 BMA's are open to non-motorized travel (foot or horseback) with only a few main roads open to motorized vehicles. Reasons for limiting vehicle access in BMA's include: 1) improving the quality of hunting, 2) weed control, and 3) preventing road damage.

### **BMA Maps**

Area BMA maps, including permission information and area rules, can be obtained by visiting our self-help stations at the regional office in Bozeman or at area offices in Butte or Helena. Information is also available through voice mail by calling (406) 994-3288 or by e-mail request at [fwpr3bmp@mt.gov](mailto:fwpr3bmp@mt.gov). We ask that you limit your map requests to five (5) per phone call, office visit or e-mail to maintain the ability to fill requests in a timely fashion and for fairness. Some individual BMA maps and permission information will be available through our website at [fwp.mt.gov/hunting/hunterAccess/privateLand/blockman](http://fwp.mt.gov/hunting/hunterAccess/privateLand/blockman). Although FWP provides maps for individual BMA's, it may be helpful to purchase the BLM or Forest map that is listed in the BMA informational chart.

## BMA Rules

As you enjoy the hunting access provided by this program, please be sure to obey the rules these landowners have requested. This is a voluntary program designed to benefit you. Enjoy this opportunity and respect landowner rights.

**Sign-In Boxes:** It is important that all hunters register at access points on the BMA's that use sign-in rosters **before** hunting. This provides important hunter use information and serves as your permission slip to be on the property to hunt. Be sure to fill out all information completely and accurately.

## Current Information

Map boundaries, rules or permission information may change from year to year. Be sure to obtain current maps and permission information every year.

## Reservations

Reservations are available or required on some BMA's (see chart). Failure to show up for a reserved slot on a BMA denies other hunters opportunity. Please make every effort to cancel reservations if you are aware you will not be able to make your arranged time. Be aware that on some BMA's, failure to show without prior notice is grounds for exclusion from further hunting opportunities on the area. Making reservations on multiple BMA's at the same time is grounds for exclusion from hunting any BMA.

## Weeds

Noxious weeds are becoming a serious concern to landowners. Please do your part to limit the spread of weeds. Try to keep equipment clean and avoid driving, parking or walking through weeds.

## Other Hunting Opportunities in Region 3

In Region 3, we recommend that you consider all access options in planning your hunts, utilizing BMA's when and where they fit into your plans. Southwest Montana has abundant public land (i.e. BLM, U.S. Forest Service & State Trust Lands) with extensive hunting opportunity. Travel plan maps depicting these lands and public accesses can be obtained at BLM, U.S. Forest Service, and FWP Offices throughout the region. Locations of offices and phone numbers are included in this booklet under the public lands access section.

### **REGION 3 FISH, WILDLIFE AND PARKS OFFICES**

## **Region 4**

### **2013 Block Management Program**

This section summarizes the available Region 4 (R4) Block Management Areas (BMA's) for the 2013 hunting season. The information contained in this table is only valid for 2013. **Valid and current BMA maps & guides are free of charge to the public and only available through FWP or possibly the BMA landowner.** Hunters will be held accountable for any violations of BMA rules that may result from using information or materials obtained from sources outside official, prescribed channels.

The requirements for hunters to gain access to R4 BMA's, and the rules you must abide by, vary for each BMA. Access information and rules for each BMA will be listed on the back of each BMA's map. Before accessing any BMA in R4, a hunter is responsible for obtaining and becoming familiar with that BMA's map & rules. Some BMA maps may be used year after year unless changes to the BMA or its rules occurred. In the following table, under the column "Additional Information", you will find the year that a valid map was produced if a new, 2013 map is not required.

Region 4 BMA's are only open from 1 Sep – 1 Jan. Outside this timeframe, the property is not enrolled in Block Management and no information or materials will be provided.

If requesting BMA maps from R4 FWP - There is a limit of 5 maps per hunter, per day. Hunters are required to obtain a map before accessing the property & should not rely on the onsite map boxes for this purpose, so hunters are encouraged to obtain maps BEFORE travelling to BMA locations.

BMA maps are available beginning Aug 15<sup>th</sup> of each year either from the R4 HQ's or online at <http://fwp.mt.gov/hunting/>. **For BMAs that require reservations, no reservations may be taken prior to August 22<sup>nd</sup>.** This is to try and give all hunters an equal opportunity to obtain a BMA map and review it before reservations begin thus all hunters have an equal opportunity to access their favorite BMA.

As stated above, some BMA maps are available to download and print from the FWP website. As all BMA maps are in color, it is highly recommended that anyone printing maps from the website only use a color printer. Identifying color-coded restrictions and colorized landownership within each map is the hunter's responsibility. Some BMA maps are not available through the website. Those maps can be obtained by contacting the R4 FWP office.

In addition to BMA maps, Region 4 maintains maps with instructions for accessing FWP-held Conservation Easements within our Region. FWP Conservation Easements are significantly different from BMA's. Whereas BMAs are private lands enrolled in a public hunting access program, Conservation Easements are lands where FWP has purchased an interest in the land to protect wildlife habitat. Most FWP-held Conservation Easement lands provide a limited amount of public hunting opportunity. You will not find information in this guide on specific FWP Conservation Easements. Instead, information and maps for accessing R4 Conservation

Easements may be obtained by contacting the R4 FWP Headquarters Office in Great Falls at (406) 454-5840 or any of the methods listed below.

**Contact information:**

Hunters may request R4 BMA maps via fax, phone, letter, email or in person.

Phone - (406) 454- 5862; fax - 761-8477; Mail / in person – FWP/ R4 BMP 4600 Giant Springs Rd. Great Falls, MT 59405. E-mail - (fwpr4bmp@mt.gov). To obtain BMA information from the FWP website - (fwp.mt.gov/hunting/hunteraccess) and then look for the block management link on the left side menu.

The BMA maps will not be faxed or electronically transmitted. Please allow enough advance time to order & receive maps via mail. Maps can also be mailed to your lodging facility if an address is provided.

Remember, hunting on private lands, including BMA's, is a PRIVILEGE, NOT A RIGHT. Hunters are allowed access through the courtesy and good will of the landowner. Hunters should leave the area in as good or better condition than they found it. Be safe, courteous, and report any violations @ **1-800-tip-mont**.

## REGION 4 BLOCK MANAGEMENT AREAS

BMA No.	BMA Name	General Location	Acres	Dates Open to Hunting	Method for Obtaining Permission/ BMA Type	Primary Hunting Opportunities	Hunting District	BLM or USFS Map	Additional Information & Year in Which Most Current & Valid BMA Map Was Produced (VMY)

# **Region 5**

## **2013 Block Management Program**

### **About Region Five's Hunting Access Program**

In 2013, there are 133 Block Management Areas (BMAs) that will provide access to approximately 685,000 acres of private, state, and federal lands. Like others, Region 5 (R5) has Type I and Type II BMAs (discussed near the front of this Guide), which give hunters flexibility in gaining permission. About half are Type I and half are Type II in R5. In general, Type I BMAs allow the hunter to administer their own permission while Type II BMAs require getting permission from the landowner or a representative. Regardless of permission type, please keep in mind that BMAs are comprised wholly or partially of private lands. As a hunter you have the privilege to access these lands and your behavior will play an important role in the future of Montana's hunting heritage. Good luck and be safe!

### **How to use this Guide for R5**

Included in this Guide is a regional map showing the general location, identification number, and permission type for each BMA as well as deer and elk hunting district boundaries. There is also an index that gives general information for each BMA, which is identified by its number. This information will help you locate the hunting opportunities you wish to pursue. The following outlines the procedure to request detailed rules/maps of particular BMAs:

1. Refer to the map and index to identify BMAs you are interested in hunting. Be aware that the hunting districts shown on the map in this guide are for deer/elk. Districts for other species are not necessarily numbered the same.
2. Using the BMA map number, obtain a copy of the rules/map from Fish, Wildlife & Parks. Most individual BMA rules/maps will be available for viewing/printing on the FWP website, which is [fwp.mt.gov](http://fwp.mt.gov). Maps may also be requested in person at the FWP R5 Headquarters at 2300 Lake Elmo Drive in Billings, by e-mailing [fwpr5bmp@mt.gov](mailto:fwpr5bmp@mt.gov) or by calling (406) 247-2940. If you need more specific information about a BMA before requesting a map, a complete set of R5 BMA maps will be available for viewing at the headquarters.
3. Hunters may receive a maximum of ***five maps per day*** if requested from FWP. Please help us reduce administrative costs by only requesting the maps of BMAs you intend to visit. Due to time constraints, BMA maps will not be faxed. Specific BMA contact information such as phone numbers will only be available on rules/maps. Please do not ask for this information over the phone as you are expected to have the rules/map in-hand before arranging permission.

### **How to obtain permission to hunt**

Each BMA rules/map lists the method and steps for obtaining permission to hunt on that particular area. Please abide by times for calling landowners, if listed. If times are not listed, please be considerate and call at reasonable hours. Landowners are not required to and may not return phone calls. While obtaining permission to hunt BMAs within R5, please keep the following Administrative Rules/policies in mind:

- **Use only current year BMA rules/maps.** R5 produces new rules/maps each year to address rule, boundary, or permission method changes. Also, there is some turnover in BMAs from year to year so a previous BMA may no longer be enrolled.
- **Reservations. By Administrative Rule, reservations may not be made before August 22<sup>nd</sup>.** If a BMA takes reservations, a hunter may only have one reservation on that BMA at any one time. After the dates of the reservation pass, a hunter may make another reservation to hunt that BMA. Hunters may have reservations on more than one BMA as long as they are not for the same hunting dates. Reservations can be up to three days, but must be for consecutive days. Individuals from the same hunting party may not make reservations for consecutive three-day blocks in an attempt to book more than three days for their party. Hunters may hunt more than one BMA in a day, but are prohibited from making reservations to hunt on more than one limited-hunter BMA per day.
- **Cancellations.** If you make advance reservations on a BMA and are unable to hunt, please inform the landowner of this as soon as possible. Also inform them if you are successful early in your hunt and won't be hunting all the days you have permission for. Failure to do so may result in the loss of hunting privileges on that BMA for the remainder of the hunting season. Be courteous and give others an opportunity to hunt.

### **Other hunting opportunities in south-central Montana**

About 10% of the land base in FWP Region 5 is enrolled in the Block Management Program. That leaves a great deal of land and associated hunting opportunities to explore. Hunters are encouraged to look at these opportunities and not limit their days afield only to BMAs.

- **Private lands not enrolled in Block Management (69%).** Remember to "Ask First" before hunting private lands and abide by landowners' instructions.
- **US Forest Service (11%).** Region 5 has portions of three National Forests (Custer, Gallatin, and Lewis & Clark) within its boundaries. Nearly all of these lands are open to public hunting.
- **Bureau of Land Management (5%).** Most BLM lands are open to hunting and are scattered throughout Region 5. The biggest blocks can be found in the northeast and southern portions of the Region.
- **State School Trust (DNRC) (5%).** DNRC lands (school sections) are fairly evenly scattered throughout our Region and usually in parcels of 640 acres or less. Hunting is allowed on most lands and is subject to DNRC rules. Hunters should read and be familiar with these rules before hunting.
- **Other (<1%).** US Fish and Wildlife Service and National Park Service make up the remainder of the land base in FWP Region 5. Hunting is allowed on some of these lands and is subject to the regulating Agency's rules. Please contact them before hunting.

**For more information regarding FWP Region 5, contact:**

# HUNTERS!

***TELL US WHAT YOU THINK  
ABOUT YOUR BMA HUNT!***

*Please return a completed BMA Comment Card  
after each BMA hunt.  
These cards help us  
evaluate the BMA  
from a hunter's perspective.*

# <b>BMA NAME</b> _____	<b>RETAIN THIS PORTION TO VERIFY PERMISSION TO HUNT THIS BMA.</b>
<b>DATE</b> _____	
Help evaluate this BMA. Please deposit completed coupon in roster box.	
1. What game species did you hunt? ( <i>Circle choice</i> )	
Elk   Deer   Antelope   Upland bird   Other _____	
2. Did you observe the game species being hunted?      Yes      No	
3. Did you bag any game species being hunted?      Yes      No	
Game Taken: _____	
4. Please rate your hunting experience? <b>Satisfactory / Unsatisfactory</b>	
Other comments: _____	

**Your comments make a difference!**

## **REGION 6**

### **2013 Block Management Program**

Region Six has nearly 300 ranches enrolling over 1,000,000 private acres in Block Management and providing enhanced access to over 500,000 public land acres. These areas offer excellent opportunity to hunt whitetail and mule deer, elk, antelope, upland game birds, and waterfowl. Please read the county information below for 2013 hunting outlooks.

Most of our Block Management Areas (BMAs) are open from September 1 to December 31, but some open early for the early antelope season. Some landowners, including those not enrolled in Block Management, may be able to accommodate hunters with special needs. Hunters are encouraged to contact our regional FWP Office to determine if opportunities exist to meet specific needs.

Two kinds of BMAs are available in Region Six, classified as Type I and Type II BMAs. In this region, Type I BMAs are areas in which hunters administer their own permission by using daily sign in boxes. Type II BMAs are areas in which written permission is given to the hunters by landowners.

Hunters can obtain specific BMA maps and rules on site at sign-in box locations or at landowner residences. Region Six maps showing all BMAs are on display at the Glasgow and Havre offices and will also be available online at [fwp.mt.gov](http://fwp.mt.gov). The Region 6 Hunting Access Guide detailing all Region 6 BMAs is available through the regional offices or online the middle of August. Hunters can also use this guide to compare BMAs on the included regional map, with the correlating BMA description charts to compare size, geographical location, and hunting opportunities desired.

The Region Six Block Management Staff encourages you to share your experience on specific BMAs by sending comment cards, pictures, or letters to the Glasgow office, or by dropping off comment or survey cards in sign-in boxes. We share these with landowners to show your appreciation, or to help improve the program.

Roosevelt County.....	88

## Region 6

# Montana Fish, Wildlife and Parks - Region 6

## **Chouteau County**

The majority of Chouteau County is comprised of private land. Significant blocks of BLM lands are located along the Missouri River. There are 2 BMAs with approximately 17,000 acres of land enrolled in the program within the county.

There are good population densities of mule deer along the Missouri and Marias Rivers, and south of the Bear Paw Mountains. There is a healthy population of white-tailed deer along the Missouri and Marias River bottoms and associated CRP acreage. Antelope occur in moderate densities near Big Sandy, especially west in the agricultural areas.

There are good numbers of sharp-tailed grouse in the foothills of the Bear Paw Mountains and fair numbers of partridge throughout the county. Pheasants are found mostly along CRP and streams. A low population of sage grouse can be found along the Missouri Breaks.

There are good duck and goose hunting opportunities along the Missouri River.

## **Hill County**

The majority of Hill County is comprised of private land. There are 3 BMAs with about 19,000 acres enrolled in the program within the county.

Due to harsh winter conditions, mule deer numbers have decreased to average population densities around the Bear Paw Mountains and low populations along the Milk River. White-tailed deer can be found throughout the Bear Paws and along the Milk River. Antelope are scattered in moderate densities due to limited habitat.

Sharp-tailed grouse can be found in brushy coulees in the Bear Paw Mountains and on the prairies. Sage grouse numbers are limited due to small amounts of habitat available. Partridge can be found throughout the county in fair populations, but numbers may be down due to wet spring conditions. Pheasants are found in moderate populations along the Milk River area.

Ducks and geese are found throughout the county. Above average precipitation in 2013 should result in improved wetland conditions and waterfowl hunting opportunities.

## **Blaine County**

About 50% of Blaine County is made up of private land. Significant blocks of BLM are located in the north and southeast portions of the county. There are 34 BMAs with over 370,000 acres enrolled in the Block Management program in this county.

Mule deer surveys indicate numbers are below average in North Blaine County due to the harsh winter. White-tailed deer are found along the Milk River area and throughout the Bear Paw Mountains. Antelope numbers are below average in North Blaine County, but are fair

in South Blaine.

Sharp-tailed grouse occur mainly in brushy coulees in the Bear Paws and prairie habitats and are at good population levels this year. Sage grouse populations are low throughout most of Blaine County due to the limited amount of sagebrush habitat. Partridge can be found throughout the county in fair populations, but numbers may be down due to wet spring conditions. Pheasants can be found in moderate to high populations along the Milk River area. However, pheasant numbers are currently below average along the Milk River in Blaine County.

Ducks and geese are found throughout the county and wetland conditions are good this year which should result in above average waterfowl hunting opportunities this fall.

### **Phillips County**

Although the majority of Phillips County is private land, large amounts of BLM land also occur throughout the county. The Charles M. Russell (CMR) National Wildlife Refuge (NWR) is located along the south edge of Phillips County and borders Fort Peck Reservoir. Bowdoin NWR, as well as several small Waterfowl Production Areas and Wildlife Management Areas, are also found here. There are 22 BMAs with over 197,000 acres of private land and enhanced access to public lands.

There is good mule deer and antelope habitat across the county; however, populations are currently lower than average. Mule deer are generally found in the prairie, badlands and breaks habitats, while antelope occupy more gently sloped prairie and agriculture habitat. White-tailed deer are located along the Milk River bottom and in areas associated with private land agriculture in North and South Phillips County and current populations are below average.

Elk are primarily found in the southern portions of the county in the Missouri River Breaks and Larb Hills. All elk hunting is by special permit only in these areas. Hunters having an elk permit should be prepared to hike at least a mile away from roads and have some means to retrieve their elk (game cart, pack, horses, etc...) since most elk are quickly pushed into secure habitat away from roads and trails. Elk numbers are currently strongest in HD 622.

Upland bird numbers are expected to be near average this fall with ample spring precipitation resulting in good cover conditions. Upland game bird numbers can also vary throughout the county due to localized weather conditions, such as severe thunderstorms and hail. Pheasant hunting opportunities are best along the Milk River and associated drainages but access is limited on private land and heavy hunting pressure on public lands, including Bowdoin National Wildlife Refuge. Sage grouse numbers are higher in the southern half of the county, while sharp-tailed grouse and Hungarian partridge can be found throughout the county. Wetland conditions are good across Phillips County and should provide good waterfowl hunting opportunity.

## **Valley County**

The majority of Valley County is private land. Large amounts of BLM are located throughout the county. The Charles M. Russell National Wildlife Refuge is located in the southern portion. Two Wildlife Management Areas (WMAs) are located near Hinsdale. In the Block Management Program, there are 39 BMAs with over 200,000 acres of private land and public land with enhanced access in Valley County.

Mule deer populations occur across the county. Mule deer numbers declined significantly during the record breaking winter of 2010-2011 and surveys indicated winter mortality occurred across all age classes. Excellent habitat conditions last summer and fall followed by two mild winters have allowed mule deer numbers to start rebounding and their numbers vary from below long term average to average.

White-tailed deer can be found throughout Valley County, especially along the Milk River Valley; however, numbers are down significantly throughout the county due to an outbreak of Epizootic Hemorrhagic Disease (EHD) in 2011. Whitetail hunters are advised to travel to the northeastern portions of Region 6, where EHD was less severe and whitetail numbers are still near or above their long-term average.

Antelope populations also suffered historical declines as a result of the severe winter of 2010-2011. Although they can be found throughout the county, numbers this year are still down significantly.

The majority of elk are found in the Missouri River Breaks and all elk hunting is by special permit only in these areas. Elk numbers are near population objectives in HDs 631 and 632.

Sharp-tail grouse numbers are expected to be good this fall, and are found mainly in the northern part of the county and in the Missouri Breaks. Sage grouse numbers this year are expected to be below to near average, and are best found in the southern part of the county. Partridge populations are spotty. Pheasant populations are expected to be good due to the recent mild winter and excellent habitat conditions this spring and summer. Pheasants are typically found within the Milk River valley and can also be found in CRP and other associated riparian habitats outside the river valley.

Waterfowl can be found throughout the county in stock ponds and along the Milk and Missouri Rivers. Good waterfowl hunting opportunities should be present this fall.

## **McCone County**

The east half of McCone County is mainly privately owned. BLM acreage increases in the west. The Charles M. Russell National Wildlife Refuge is located on the extreme west border. There are 15 BMAs with 88,000 acres enrolled in the program in the Region Six Portion of the county. There are also some BMAs located in the county that are administered by Region Seven.

Mule deer are found throughout the county especially in rougher country and populations are below long-term averages, especially on the western end of the county in HD 652. White-tailed deer numbers are down significantly in McCone County due to the EHD die-off in 2011.

The antelope populations also declined during the winter of 2010-2011. They are best found in the southern half of the county.

Sharp-tailed grouse numbers are expected to be good and can be found in rough/brushy country. Sage grouse populations are expected to be below to near average and can be found in sagebrush habitat. Partridge are found in spotty populations. The best areas to find pheasants are along the Missouri River, in CRP and associated riparian areas.

Waterfowl can be found throughout the county at stock ponds and along the Missouri River. Wetland conditions and waterfowl numbers are very good this year.

### **Richland County**

The majority of Richland County is privately owned. Hunting access is fair, except along the Missouri River where access is more restricted. There are 10 BMAs with nearly 67,000 acres enrolled in the program in the Region Six part of the county. There are additional BMAs located in the south and east portions of the county administered by Region Seven.

White-tailed deer and mule deer have rebounded slightly, but are expected to be slightly below average throughout the county due to declines following the severe winter of 2010-2011. Antelope numbers remain below average as well.

Sharp-tailed grouse and pheasant numbers are good in the majority of the county, while partridge are found in spotty populations. Habitat conditions have been good and the county is producing good numbers of upland game birds. The turkey population is fair and is strongest along the Missouri and Yellowstone River bottoms.

Waterfowl can be found throughout the county in stock ponds and along the Yellowstone and Missouri Rivers. Wetland conditions have been good in 2013 and good waterfowl hunting opportunities should be present this fall.

### **Daniels County**

Daniels County is comprised of about 50% private land and 50% state owned land. There are 5 BMAs with over 50,000 acres enrolled in the program.

White-tailed deer populations are at average to above average levels. Mule deer populations are currently at or above average as well. Antelope populations are fair in suitable habitat, but are at below average levels.

Sharp-tailed grouse and pheasant populations are doing well thanks to good habitat and wintering conditions last year and good habitat conditions this spring and summer. Brood production is expected to be good as well.

Waterfowl hunting opportunities are expected to be good, with abundant precipitation occurring this year.

### **Sheridan County**

The majority of Sheridan County is comprised of private land. Parts of the Medicine Lake National Wildlife Refuge and numerous Waterfowl Production Areas are open to public hunting. Contact the refuge headquarters for further information (406-783-2305). In the county, there are 17 BMAs with approximately 79,000 acres of land enrolled in Block Management.

White-tailed deer and mule deer populations are at average to above average levels. Antelope populations are limited due to marginal antelope habitat in this County.

Sharp-tailed grouse and pheasant populations are at above average levels due to good habitat conditions this spring and summer. Partridge populations are expected to be fair. Habitat conditions in 2012 were good for upland game birds and production of young was good. Similarly in 2013, spring habitat conditions have been good and expect to support good brood numbers come fall. Waterfowl hunting opportunities are expected to be good due to good precipitation and wetland conditions this year.

### **Roosevelt County**

The majority of Roosevelt County is comprised of private land. Hunting access on private land is good except for along the Missouri River. This county has 9 BMAs with nearly 80,000 acres enrolled in the program.

White-tailed deer are distributed throughout the county, but populations are currently at below average levels due to an outbreak of Epizootic Hemorrhagic Disease in 2011. There are good numbers of mule deer found in rough topography adjacent to the Missouri River. The county contains limited antelope habitat that supports a few antelope.

Sharp-tailed grouse and pheasant populations are currently at or slightly above average levels, except in some areas of the Missouri River bottom where the habitat is still recovering from flooding in 2011. Overall habitat conditions are very good for upland game birds and brood numbers are expected to be good this year. Partridge populations are expected to be fair to near average. Turkey populations are limited to the Missouri River bottom and adjacent uplands.

Waterfowl hunting opportunities are good, with good wetland conditions and good precipitation occurring in 2013.

## Region 6

### 2013 REGION 6 BLOCK MANAGEMENT AREAS - CHOUTEAU COUNTY

\* BMAs located in the southern portion of Chouteau County are not listed in this book because they are geographically located in Region Four. These BMAs are listed in the Region Four Block Management Hunter Guide.

BMA No.	BMA Name	General Location	Acres	Dates Open to Hunting	Method for Obtaining Permission/ BMA Type	Primary Hunting Opportunities	Hunting District	BLM or USFS Map	Additional Information
4	Robert Boyce (Chouteau)	30 mi. SE of Big Sandy on Warrick Rd	6,690	9/1-12/31	Written permission on site (7am-7pm) 386-2294	WT/M Deer	D/E 690 ANT 690	Rocky Boy	Hunter numbers limited to 20 per day. Walk in from designated areas
6	Mack Ranch (Chouteau)	8 mi. north of Big Sandy on Hwy 87	9,920	9/1-12/31	Written permission from house 7am-9am	WT/M Deer Antelope Upland Birds	D/E 690 ANT 690	Rky Boy Lnsn Lake	Up to 20 hunters per week. Park and walk from designated areas. No driving off main roads. No hunting near buildings

### 2013 REGION 6 BLOCK MANAGEMENT AREAS - HILL COUNTY

BMA No.	BMA Name	General Location	Acres	Dates Open to Hunting	Method for Obtaining Permission/ BMA Type	Primary Hunting Opportunities	Hunting District	BLM or USFS Map	Additional Information
1	Martin C. Springer/ Sharon R. Bellar (Hill)	17 mi. S of Havre on Beaver Ck. Rd, 1.5 mi. Sucker Ck. Rd	3,032	9/1-12/31	Written permission at sign-in box.	WT/M Deer Upland Birds	D/E 690 ANT 690	Rocky Boy	10 permission slips available at sign-in box per day. No off road travel. Park and walk from parking areas. No dogs or horses allowed. More slips may be added as hunters leave. **NO written permission required after 12/1 - Walk in only**
3	Phalen Ranch (Hill, Chouteau, Blaine)	30 mi. south of Havre on Clear Creek Road	10,640	9/1-12/31	Contact landowner 395-5037 for permission 7am-7pm	WT/M Deer Elk	D/E 690 ANT 690	Rocky Boy	Up to 20 hunters per week. Park and walk from designated areas. No driving off main roads. No hunting near buildings

Treasure County.....	118
Wibaux County.....	119

### DATES TO REMEMBER

**AUGUST 15<sup>th</sup>** Landowner/Cooperator names and phone numbers are available.

**AUGUST 22<sup>nd</sup>** First day reservations are accepted.

### ABOUT REGION SEVEN'S HUNTING ACCESS PROGRAM

In 2013, there are approximately 278 Block Management Areas (BMAs) that provide access to over 2,504,000 acres of private, state, and federal lands. Similar to other FWP Regions, Region 7 (R7) has Type 1 and Type 2 BMAs, which gives hunters flexibility in gaining permission. About one-third of Region 7 BMAs are Type 1 and two-thirds are Type 2. In general, Type 1 BMAs allow the hunter to administer their own permission, while Type 2 BMAs require obtaining permission from the landowner or a representative. Regardless of permission type, please keep in mind that BMAs are comprised wholly or partially of private lands. As a hunter you have the privilege to access these lands and your behavior will play an important role in the future of Montana's hunting heritage.

The Region 7 staff encourages hunters to share their experiences on specific BMAs. Please return comment cards to sign-in boxes and/or mail in the self-addressed, postage paid comment cards. These comments are used to improve the program as well as to show your appreciation to cooperating landowners. Pictures from your hunt are also an effective way to share your experience and can be emailed to [fwp7bmp@mt.gov](mailto:fwp7bmp@mt.gov). Along with comment cards, the pictures will be shared with the landowners to express your gratitude. Good luck and be safe!

### HOW TO USE THIS GUIDE FOR HUNTING IN REGION SEVEN

Included in this Guide is a regional map depicting the general location, identification number, and permission type for each BMA. There is also an associated chart that is organized by county and arranged in order by the BMA number. This chart gives general information for each BMA. The information in this chart will help locate the hunting opportunities you wish to pursue. **It is important to recognize each BM cooperator utilizes their own management style; this may include limits on daily hunter numbers, vehicular travel restrictions, pasture assignments, temporary closures, etc...** The following outlines the procedure to request additional information for individual BMA's:

1. Refer to the map and chart to identify individual BMA's you are interested in hunting. Note: The chart lists 'Primary Hunting Opportunities'. This is intended to assist hunters in selecting a BMA that fits their desired hunting opportunity. In contrast, for a BMA that does not list a particular commissioned game specie or species, the omission of that specie(s) is not intended to represent that those game specie(s) may not be found or could not be hunted on that particular BMA. 'Primary Hunting Opportunity' information should be used as general reference regarding game that is most likely to occur on the BMA. BMAs that have a formal species restriction in place will have noted such a restriction in the 'Additional Information' column. It is important to note that BM cooperators may exercise their discretion in managing the hunting on their property in response to environmental conditions and game numbers.
2. If you select a Type 1 BMA... Rules/maps can be obtained onsite at the hunter sign-in boxes or in person at the Regional office in Miles City.
3. If you have selected a Type 2 BMA...Using the BMA number, request landowner contact information from the Fish, Wildlife & Parks Region 7 headquarters in Miles City. Individual landowner contact information may be obtained in person at 352 I-94 Business Loop, by e-mailing [fwpr7bmp@mt.gov](mailto:fwpr7bmp@mt.gov) or by calling (406) 234-0930.
4. If you need more specific information about a BMA to assist in your planning efforts, a complete set of R7 BMA maps will be available for viewing at the Regional headquarters. Hunters are allowed to receive a maximum of **five maps per day**. Please help us reduce administrative costs by only requesting the maps of BMA's you intend to visit. Due to time and cost limitations, BMA maps will not be faxed or mailed.
5. Most individual BMA rules/maps will also be available for viewing/printing on the FWP website: [www.fwp.mt.gov](http://www.fwp.mt.gov).

#### **HOW TO OBTAIN PERMISSION TO HUNT REGION 7 BMA's**

Again, Type 1 BMAs are hunter administered (see step 1 above). For Type 2 BMA's, landowner contact information will be given for 5 BMA's per phone inquiry. Contact information usually consists of the name and phone number of the person(s) with authority to grant permission. When you are contacting landowners to secure permission to hunt, please abide by the specified calling times for the cooperator. When call times are not specified, please call between **7:00am and 9:00pm** Mountain Time. Due to the volume of calls received, landowners are not required to and should not be expected to return phone calls. While obtaining permission to hunt BMAs within R7, please keep the following administrative rules/policies in mind:

- **Use only current year BMA rules/maps.** R7 produces new rules/maps each year to address rule, boundary, or permission method changes. Also, there is some turnover in BMA's from year to year, therefore a BMA from a previous year may no longer be enrolled.
- **Reservations may not be made before August 22<sup>nd</sup>.** If a BMA takes reservations, a hunter may only have one reservation on that BMA at any one time. After the dates of the reservation pass, a hunter may make another reservation to hunt that BMA. Hunters may have reservations on more than one BMA as long as they are not for the same hunting dates. However, due to the high demand, **reservations will only be granted for one BMA at a time for the BMAs that are administered through the Region 7 office.** Reservations can be up to three days, but must be for consecutive days. Individuals from the same hunting party may not make reservations for consecutive three-day blocks in an attempt to book more than three days for their party. Hunters may hunt more than one BMA in a day, but are prohibited from making reservations to hunt on more than one limited-hunter BMA per day.
- **Cancellations.** If you make advance reservations on a BMA and are unable to hunt, **please inform the landowner of this as soon as possible.** In addition, inform the landowner if you are successful early in your hunt and won't be hunting for your full scheduled reservation. Failure to do so may result in the loss of hunting privileges on that BMA for the remainder of the hunting season. Please be courteous and give others an opportunity to hunt.

## **ADDITIONAL HUNTING OPPORTUNITIES IN SE MT**

Approximately 12% of the total land in FWP Region 7 is enrolled in the Block Management Program, leaving a large amount of other land with potential hunting opportunities for hunters to explore. Hunters are encouraged to consider these other opportunities and not limit their hunting activities to only BMA's.

## **PRIVATE LANDS NOT ENROLLED IN BLOCK MANAGEMENT**

Region 7 is comprised of primarily private land (76%). Although the region hosts the largest Block Management Program with 331 cooperating landowners enrolling approximately 2.5 million acres (12%) of the 19.2 million acres of private land in Region 7, hunting access can often be obtained on non-Block Management private property throughout much of the region by respectfully asking for hunting permission. Always remember to "Ask First" before hunting on private land.

## **PUBLIC LANDS**

In Region 7, there are over 3.8 million acres of public ownership (BLM, State Lands, National Forest Service and National Wildlife Refuge). This assortment of public land constitutes a land base composition of 18 % federal land and 6% State of Montana Department of Natural Resources (DNRC) land. Public lands are accessible via public roads, adjacent public land and adjacent private land with landowner permission. Hunting activities on federal lands are subject to both state and federal regulations. *Some accessible tracts of Department of Natural Resource Land (State School Trust Land) are formally enrolled in the Block Management Program.* Formally enrolled State Land must be posted with contact information for the method of obtaining permission. Please contact regional FWP staff to verify accessibility and use rules for accessing public lands contained within BMA boundaries.

## **WILDLIFE INFORMATION**

Region 7 produces, on average, one-third of the state's annual deer harvest as well as up to 45% of the state's annual antelope harvest. The Region also supports adequate populations of upland birds and waterfowl to provide diverse hunting opportunities.

**Antelope** – Antelope are common throughout Southeastern MT (R7). Hunting Districts (HD) 701 and 705 are traditionally the more productive antelope districts.

**Elk** – Isolated populations of elk exist throughout Region 7. Typically most of the elk hunting opportunities are located in the northern portion of HD 700 as well as the southern portion of HD704.

**Mule Deer** – Mule Deer are common throughout Southeastern MT (R7). HD 704 and 705 are traditionally the more productive mule deer districts.

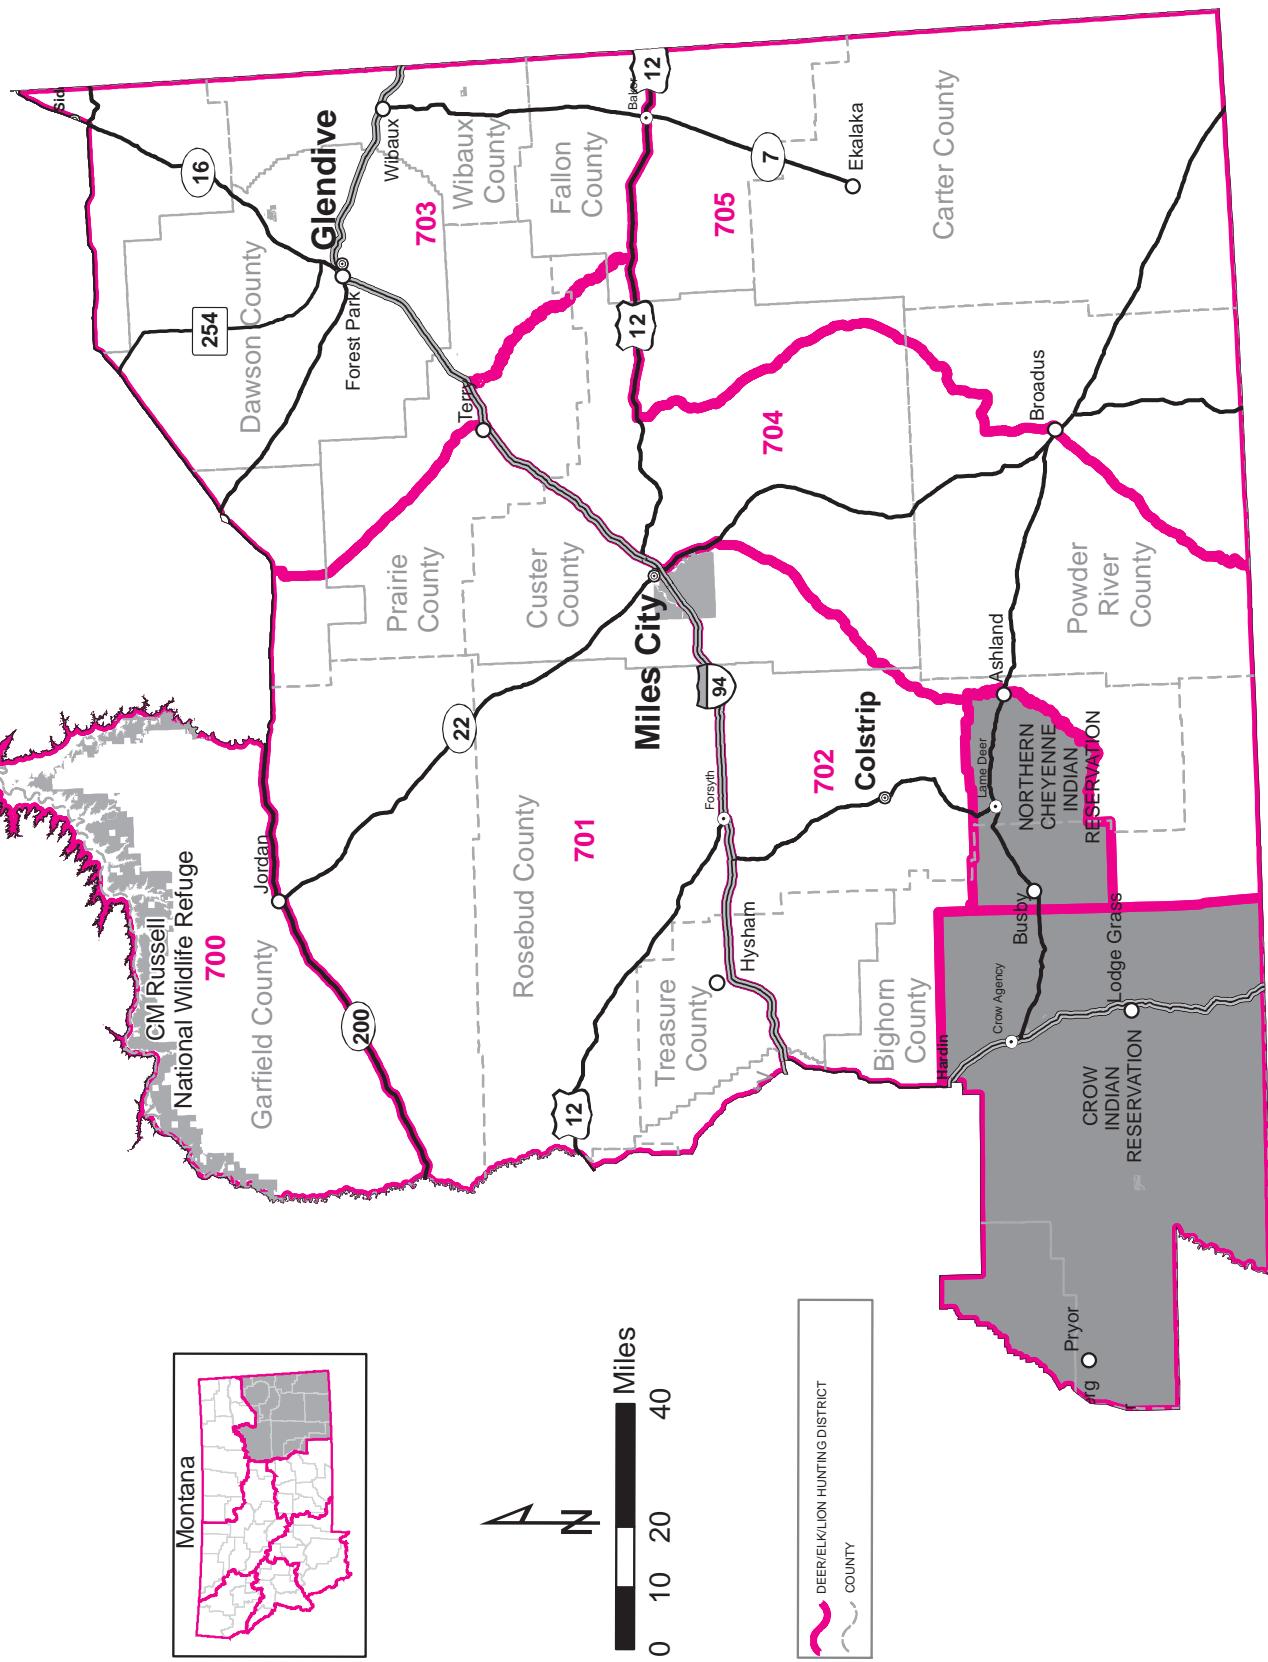

**White-tailed Deer** – White-tailed deer can be found in conjunction with riparian and agricultural areas throughout Region 7. HD 701 and 703 offer the majority of white-tailed deer habitat.

**Upland Game Birds** - Six species of upland game birds occur in Southeastern Montana. Native birds include sharp-tailed grouse, sage grouse and the migratory mourning dove. Non-native species are the ring-necked pheasant, Hungarian (gray) partridge and Merriam's turkey. Grouse species are well dispersed through the region. Pheasant numbers are generally stronger in the NE portion of the region but can be found concurrent to major riparian areas throughout the region.

**Waterfowl** - Several species of waterfowl can be found throughout the region in stock ponds and major river systems. Excellent late-season Canada goose hunting opportunities are present along the Yellowstone River Valley. The Yellowstone River, below the high-water mark is **closed to waterfowl hunting** from the mouth of the Big Horn River east to the Rosebud/Custer County line. Waterfowl hunting is legal off the river on adjacent land. (See waterfowl regulations)

# OTHER ACCESS OPPORTUNITIES

## Attention Fall Game Bird Hunters:

Don't miss out on the **Open Fields for Game Bird Hunters** – an exciting new opportunity to hunt upland game birds and waterfowl on enrolled tracts of CRP and other quality habitats. Through cooperation of private landowners and federal Farm Bill funding delivered to FWP through the Farm Service Agency, this new program provides game bird hunters with walk-in access on enrolled lands with no further permission required. Information about the program, including a comprehensive map, may be found at [fwp.mt.gov](http://fwp.mt.gov).

## Block Management and Public Lands

In many cases, enrollment of deeded ground into block management provides access to otherwise inaccessible tracts of state or federal land or blocks together large tracts of public and private land. Each block management area (BMA) has rules unique to that BMA. Recreationists should become familiar with the individual BMA ranch rules **prior** to actually hunting on the BMA. As a general rule, BMA restrictions do not apply to legally-accessible tracts of public land adjacent to, or contained within, the BMA boundaries. However, in some cases, legally-accessible public lands ARE formally enrolled, with BMA restrictions imposed for resource or hunter management reasons. **Contact regional FWP staff to verify rules for accessible public lands associated with BMAs.**

## Streams and Access

Some BMAs have streams within their boundaries, so it is important to know and understand Montana's Stream Access Law. Under this statute, rivers and streams capable of recreational use may be used by the public within the **ordinary high water marks**. Although this law gives recreationists the right to pursue water-based activities within the high water marks of rivers and streams, it **does not give recreationists the right to enter private lands bordering those streams or to cross private lands to gain access to streams**. Islands may or may not be public lands. Before hunting on islands, always verify ownership. Check with county offices or FWP regional offices to confirm land ownership.

## Other FWP Hunting Access Opportunities

In addition to the Block Management Program, other FWP programs may provide hunting access opportunities.

These include:

- 1) Public Land Access Projects - focus on public access to state and federal lands;
- 2) Special Access Projects - regional species-specific projects;
- 3) Habitat Montana - focuses on habitat protection through conservation easement; may also include limited public access provisions;
- 4) Upland Game Bird Habitat and Pheasant Release Program - long-term upland bird habitat projects; statewide listing available September 1;
- 5) Wildlife Management Areas and Fishing Access Sites - FWP-owned lands which may provide public hunting access opportunities;

\*While these public hunting access opportunities may or may not be managed under the the Block Management Program, people interested in learning more about specific opportunities are encouraged to contact the regional FWP headquarters in the region where a hunt is planned.

# Hunter Landowner

• STEWARDSHIP PROJECT •

The Hunter-Landowner Stewardship Project is a program designed to promote responsible hunter behavior and help hunters and landowners build effective relationships based upon mutual respect and understanding.

The program is intended to reach an audience of hunters and landowners. People who complete the program can receive a certificate, bumper sticker, and free cap.

The voluntary information and education program is available at no cost.

## Farmers and Ranchers

On behalf of Fish, Wildlife & Parks, and all Montana hunters, we'd like to say "Thanks!"

Thanks for providing habitat for Montana's public wildlife resources, and thanks for opening your gates to resident and nonresident hunters.
